

*Did you notice the new flowers  
in the flower beds throughout Stanbridge East?*

They were planted by the volunteers of your **Embellishment Committee** these past few weeks. Each year, we plant flowers, shrubs and trees. We also weed, add compost and mulch, and transplant the perennials. All this takes time, work and money.

**It costs \$1500 each summer to embellish our municipality.**

This is why we are asking each family within our municipality to make a small donation to help defray some of the costs. These donations are our only source of funding. Help us to preserve the charm and beauty of Stanbridge East! **THANK YOU!**
