

MUNICIPALITÉ DE STANBRIDGE EAST

September 2018

The little new one has finally arrived at the municipal garage!
Distribution by the municipality of your brown bin

As you are no doubt aware, composting will begin soon throughout the Brome-Missisquoi MRC.

The brown bins will be delivered by the municipality to every residence. (Each bin has an identification number that will be matched to your street address)

Between **September 10th and October 26th 2018.**

It is not necessary to be present during the delivery.

You will find **inside** the sealed roadside bin a mini kitchen bin, information and user guide and a paper bag sample which can be used in the mini kitchen bin.

The municipality of Stanbridge East **will not begin its collection of compostable materials until the month of January 2019**

To avoid any inconveniences, do not fill your bin until one week prior to the first collection.

As soon as the 2019 garbage collection calendar is completed, during the month of December 2018, we will send out the calendar of all the collections (organic materials, residential and recyclable) The information will also be available on the town web site <http://stanbridgeeast.ca/en/publicworks.php>

The website **bmvert.ca** is always a good source to obtain more information.

Placing the right materials in the right bin is the solution for our *regional success!*

Thank you for all the efforts you'll make to produce *good-quality compost!*

For any additional information, don't hesitate to call us at 450-248-3188 or the Brome-Missisquoi MRC by dialing toll free 1-866-278-9538
