

The strike at Canada Post is disrupting the distribution of documents that the Municipality was supposed to send you by mail for the municipal general election on November 2.

Therefore, in the days that follow, the Municipality undertakes to distribute the registration notices to you, by dropping them directly at your door or in your mailbox.

You can also check your registration on the provincial list of electors on the Élections Québec website. If you are registered on this list, you are probably also on the municipality's list.
