MUNICIPALITÉ DE STANBRIDGE EAST

SUBJECT: Installation of Civic Address Signs for Your Safety

Dear Citizens,

As part of our ongoing efforts to improve public safety services, the Municipality will soon begin installing new civic address identification signs across our entire territory. This work has been contracted to the company Martech Signalisation.

Why new signs?

The main goal of this initiative is to enhance your safety. These highly visible and uniform signs will allow emergency services to immediately locate your property. In an emergency, every second counts: this optimized visual identification will enable the fire department and ambulances to locate your home much faster.

Regulations and Public Consultation

This initiative is being carried out in compliance with the new regulations established by the Town Council. Citizens who wish to review the details (installation standards, dimensions, etc.) can consult the full By-law text (N° 450-2026) at Town Hall during regular business hours.

Project Rollout:

- The Installer: The Martech Signalisation team will be on the territory installing in the coming weeks.
- Your Presence: You do not need to be home, as the installation will take place entirely outdoors, at the edge of your property.
- Cost: This installation is fully funded and covered by the municipality.

We thank you in advance for your valuable cooperation and for welcoming the technicians from Martech Signalisation. Through this simple action, we are working together to make our community a safer place to live.

If you have any questions regarding this project, please do not hesitate to contact the Town Hall.
